

SAFETY DATA SHEET

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Product identifier Product name	Boron Reagent #3	
Product number	R-0955	
Recommended use and restrictions	To be used in accordance with manufacturer instructions or under the direct guidance of th manufacturer.	
Manufacturer	Taylor Technologies, Inc. 31 Loveton Circle Sparks, MD 21152 Phone: (410) 472-4340 Emergency phone: (800) 837-8548	
CTION 2: Hazard(s) Identif	fication	
Physical hazards	Corrosive to metals	Category 1
Health hazards	Eye damage/irritation	Category 1
	Skin corrosion/irritation	Category 1B
Environmental hazards	Not currently regulated by OSHA. For ac	ditional information, refer to section 12 of the SDS
Signal word	Danger	
Signal word Hazard statements	Danger May be corrosive to metals. Causes seve	ere skin burns and serious eye damage.
C C	5	ere skin burns and serious eye damage.
Hazard statements	May be corrosive to metals. Causes seve Do not breathe dust or mists. Wash skin	thoroughly after handling. Wear protective
Hazard statements Precautionary statements	May be corrosive to metals. Causes seven Do not breathe dust or mists. Wash skin gloves/protective clothing/eye protection. IF IN EYES: Rinse cautiously with water present and easy to do. Continue rinsing center. IF SWALLOWED: Rinse mouth. Immediately take off all contaminated clo clothing before reuse. IF INHALED: Rem breathing. Immediately call a physician of	thoroughly after handling. Wear protective /face protection. Keep only in original container. for several minutes. Remove contact lenses, if g. Immediately call a physician or poison control Do NOT induce vomiting. IF ON SKIN (OR HAIR): othing. Rinse skin with water. Wash contaminated nove person to fresh air and keep comfortable for
Hazard statements Precautionary statements Prevention	May be corrosive to metals. Causes seven Do not breathe dust or mists. Wash skin gloves/protective clothing/eye protection. IF IN EYES: Rinse cautiously with water present and easy to do. Continue rinsing center. IF SWALLOWED: Rinse mouth. I Immediately take off all contaminated clo clothing before reuse. IF INHALED: Rem breathing. Immediately call a physician of material damage.	thoroughly after handling. Wear protective /face protection. Keep only in original container. for several minutes. Remove contact lenses, if g. Immediately call a physician or poison control Do NOT induce vomiting. IF ON SKIN (OR HAIR): othing. Rinse skin with water. Wash contaminated hove person to fresh air and keep comfortable for or poison control center. Absorb spillage to preven tant container with corrosive-resistant inner liner. I
Hazard statements Precautionary statements Prevention Response	May be corrosive to metals. Causes seven Do not breathe dust or mists. Wash skin gloves/protective clothing/eye protection. IF IN EYES: Rinse cautiously with water present and easy to do. Continue rinsing center. IF SWALLOWED: Rinse mouth. I Immediately take off all contaminated clo clothing before reuse. IF INHALED: Rem breathing. Immediately call a physician of material damage. Store locked up. Store in corrosive-resist tightly capped. Store out of direct sunligh	thoroughly after handling. Wear protective /face protection. Keep only in original container. for several minutes. Remove contact lenses, if g. Immediately call a physician or poison control Do NOT induce vomiting. IF ON SKIN (OR HAIR): othing. Rinse skin with water. Wash contaminated hove person to fresh air and keep comfortable for or poison control center. Absorb spillage to preven tant container with corrosive-resistant inner liner. I

inixtui e			
Chemical name	Common name and synonyms	CAS number	% w/w
Water	Dihydrogen oxide	7732-18-5	80-100
Sodium hydroxide	Caustic soda	1310-73-2	10-30

SECTION 4: First-Aid Measures

If inhaled

Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical attention if irritation develops.

In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek medical advice.

If swallowed

Immediately call a physician or poison control center. Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs.

Most important symptoms and effects, both acute and delayed

Refer to section 2 and/or section 11 of the SDS for the most important known symptoms and effects.

Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

General information

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

SECTION 5: Firefighting Measures

Extinguishing media Suitable extinguishing media Unsuitable extinguishing media	Use extinguishing media appropriate for surrounding fire. Do not use a heavy water stream. Use of heavy stream of water may spread fire.
Specific hazards arising from the s Fire hazard	substance or mixture Not flammable
Explosion hazard	Not explosive
Reactivity	May be corrosive to metals.
Hazardous combustion products	Sodium oxides. Other irritating fumes and smoke.
Advice for firefighters Precautionary measures	Exercise caution when fighting any chemical fire; hazardous fumes will be present.
Firefighting equipment/instructions	Use water spray or fog for cooling exposed containers.
Protection during firefighting	Do not enter fire area without proper protective equipment, including respiratory protection.
Other information	Refer to section 9 of the SDS for flammability properties.

SECTION 6: Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

Environmental precautions

Avoid discharge into drains, watercourses, or onto the ground.

Methods and material for containment and cleaning up

Ventilate the area. Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water to remove residual contamination. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

Reference to other sections

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

SECTION 7: Handling and Storage

Personal precautions, protective equipment, and emergency procedures

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

Conditions for safe storage, including any incompatibilities

Store locked up. Store in corrosive-resistant container with corrosive-resistant inner liner. Keep tightly capped. Store out of direct sunlight between 36°F–85°F. Store away from incompatible materials (refer to section 10 of the SDS).

SECTION 9: Physical and Chemical Properties

Information on basic physical and chemical properties

Physical state	Liquid
Form	Liquid
Color	Clear, colorless
Odor	Odorless
Odor threshold	No data available
рН	No data available
Evaporation rate	No data available
Melting point	No data available
Freezing point	No data available
Initial boiling point (boiling range)	No data available
Flash point	No data available
Specific gravity	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Flammability (solid, gas)	No data available
Upper Flammability Limit	No data available
Lower Flammability Limit	No data available
Vapor pressure	No data available
Vapor density	No data available
Relative density	No data available
Solubility	Soluble in all proportions

Partition coefficient (n-octanol/water)	No data available
Viscosity	No data available
Explosive properties	No data available
Oxidizing properties	No data available
CTION 10: Stability and Read	ctivity
Reactivity	May be corrosive to metals.
Chemical stability	Stable under recommended handling and storage conditions (refer to section 7 of the SDS).
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Do not use in areas without adequate ventilation.
Incompatible materials	Metal compounds, nitromethane, oxidizing agents, strong acids, and sugars.
Hazardous decomposition products	No hazardous decomposition products under normal conditions.
CTION 11: Toxicological Info	ormation
Information on toxicological effect	ts
Likely routes of exposure are sl	
Most important symptoms/effects, acute and	Direct skin contact may cause corrosive skin burns, deep ulcerations, and possibly permanen scarring.
delayed	Direct contact with concentrated solutions may be corrosive and may cause severe damage, including blindness. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
	Inhalation of mists can cause respiratory irritation. Symptoms may include coughing, choking, and wheezing. Inhalation could result in pulmonary edema (fluid accumulation). Symptoms of pulmonary edema (chest pain, shortness of breath) may be delayed.
	May produce burns to lips, oral cavity, upper airway, esophagus, and possibly the digestive tract. Symptoms may include abdominal pain, vomiting, burns, perforations, and bleeding.
Acute toxicity	This product is not classified as an acute toxicity hazard.
Skin corrosion/irritation	Causes severe skin burns.
Serious eye damage/eye irritation	Causes serious eye damage.
Respiratory sensitization	No data available
Skin sensitization	No data available
Germ cell mutagenicity	No data available

SECTION 13: Disposal Considerations

Collect and reclaim or dispose of in sealed containers at a licensed waste disposal site. Since emptied containers may retain product residue, follow label warnings even after container is emptied. This material and its container must be disposed of in a safe manner. Dispose of contents/container in accordance with local/regional/national/international regulations.

SECTION 14: Transport Information

DOT

DOT	
UN number	1824
UN Proper shipping name	Sodium Hydroxide Solution
Reportable Quantity	
Class (Subsidiary risk)	8
