

# **SAFETY DATA SHEET**

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Product identifier		
Product name	Permanganate N/5	
Product number	R-1305L	
Recommended use and restrictions	To be used in accordance with manufact manufacturer.	urer instructions or under the direct guidance of the
Manufacturer	Taylor Technologies, Inc. 31 Loveton Circle Sparks, MD 21152 Phone: (410) 472-4340 Emergency phone: (800) 837-8548	
CTION 2: Hazard(s) Identif	ication	
Physical hazards	Not applicable	
Health hazards	Reproductive Toxicant	Category 2
Environmental hazards	Acute Aquatic Hazard	Category 2
	Chronic Aquatic Hazard	Category 2
Hazard pictograms		
Signal word	Warning	
Hazard statements	Suspected of damaging fertility or the un with long lasting effects.	born child. Toxic to aquatic life. Toxic to aquatic li
Precautionary statements		
Prevention	read and understood. Wear protective gluin if contact is likely to occur. Avoid release	
Response	IF EXPOSED OR CONCERNED: Get me	edical advice/attention. Collect spillage.
Storage	Store locked up. Keep tightly capped. Sto	pre out of direct sunlight between 36°F–85°F.
Disposal	regulations.	nce with local/regional/national/international
Hazards not otherwise classified	Not applicable	
CTION 3: Composition/Info	ormation on Ingredients	
Mixture		
<b>a</b> i i i	<b>A</b>	

Mixture			
Chemical name	Common name and synonyms	CAS number	% w/w
Water	Dihydrogen oxide	7732-18-5	80-100
Potassium Permanganate	Permanganic Acid Potassium Salt	7722-64-7	0.1-1
SECTION 4: First-Aid Meas	sures		

#### If inhaled

Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed.

#### In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical attention if irritation develops.

#### In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek medical advice.

#### If swallowed

Immediately call a physician or poison control center. Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs.

#### Most important symptoms and effects, both acute and delayed

Refer to section 2 and/or section 11 of the SDS for the most important known symptoms and effects.

#### Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

#### **General information**

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

#### SECTION 5: Firefighting Measures

Extinguishing media Suitable extinguishing media Unsuitable extinguishing media	Use extinguishing media appropriate for surrounding fire. Do not use a heavy water stream. Use of heavy stream of water may spread fire.
Specific hazards arising from the s Fire hazard	substance or mixture Not flammable
Explosion hazard	Not explosive
Reactivity	Hazardous reactions will not occur under normal conditions.
Hazardous combustion products	Potassium oxides, manganese oxides. Other irritating fumes and smoke.
Advice for firefighters	
Precautionary measures	Exercise caution when fighting any chemical fire; hazardous fumes will be present.
Firefighting equipment/instructions	Use water spray or fog for cooling exposed containers.
Protection during firefighting	Do not enter fire area without proper protective equipment, including respiratory protection.
Other information	Refer to section 9 of the SDS for flammability properties.

# SECTION 6: Accidental Release Measures

#### Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

#### **Environmental precautions**

Avoid discharge into drains, watercourses, or onto the ground.

#### Methods and material for containment and cleaning up

Ventilate the area. Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water to remove residual contamination. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

#### **Reference to other sections**

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

#### SECTION 7: Handling and Storage

#### Personal precautions, protective equipment, and emergency procedures

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

#### Conditions for safe storage, including any incompatibilities

Store out of direct sunlight between 36°F-85°F. Store locked up. Keep tightly capped. Store away from incompatible materials (refer to section 10 of the SDS).

# SECTION 8: Exposure Controls/Personal Protection

## **Occupational exposure limits**

Components	Туре	Value
Potassium Permanganate (CAS 7722-64-7) as Mn	TWA	0.1 mg/m <sup>3</sup>
US NIOSH: Pocket Guide to Chemical Hazards		
Components	Туре	Value
Potassium Permanganate (CAS 7722-64-7) as Mn	TWA	1 mg/m <sup>3</sup>
Potassium Permanganate (CAS 7722-64-7) as Mn	Ceiling	3 mg/m <sup>3</sup>
US OSHA Table Z-1 Limits for Air Contaminants (29	CFR 1910.1000)	
Components	Туре	Value
Potassium Permanganate (CAS 7722-64-7) as Mn	Ceiling	5 mg/m <sup>3</sup>

#### **Biological limit values**

No biological exposure limits noted for the ingredient(s).

#### **Exposure controls**

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling
	this product.
Personal protective equipment	
Eye/face protection	Wear appropriate chemical safety goggles if contact is likely to occur.
Skin protection	Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.
Body protection	Wear appropriate protective clothing if contact is likely to occur.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the exposure limits. Advice should be sought from respiratory protection suppliers.

# SECTION 9: Physical and Chemical Properties

#### Information on basic physical and chemical properties

m	ormation on basic physical and	chemical properti
	Physical state	Liquid
	Form	Liquid
	Color	Dark Purple
	Odor	Odorless
	Odor threshold	No data available
	рН	No data available
	Evaporation rate	No data available
	Melting point	No data available
	Freezing point	No data available
	Initial boiling point (boiling range)	No data available
	Flash point	No data available
	Specific gravity	No data available
	Auto-ignition temperature	No data available
	Decomposition temperature	No data available
	Flammability (solid, gas)	No data available
	Upper Flammability Limit	No data available
	Lower Flammability Limit	No data available
	Vapor pressure	No data available
	Vapor density	No data available
	Relative density	No data available

Solubility	Soluble in all proportions	
Partition coefficient (n-octanol/water)	No data available	
Viscosity	No data available	
Explosive properties	No data available	
Oxidizing properties	No data available	
CTION 10: Stability and Read	tivity	
Reactivity	Hazardous reactions will not	occur under normal conditions.
Chemical stability	Stable under recommended I	handling and storage conditions (refer to section 7 of the SDS)
Possibility of hazardous reactions	No dangerous reaction know	n under conditions of normal use.
Conditions to avoid	Contact with incompatible ma	aterials. Do not use in areas without adequate ventilation.
Incompatible materials	Combustible material, reduci	ng agents, acids, peroxides, powdered metal.
Hazardous decomposition products	No hazardous decomposition	n products under normal conditions.
CTION 11: Toxicological Info	rmation	
Information on toxicological effect	S	
Likely routes of exposure are sk		
Most important	-	e irritation. Symptoms may include redness and itching.
symptoms/effects, acute and delayed	redness, swelling, and blurred	
	breathing difficulties.	respiratory irritation. Symptoms may include coughing and
	Ingestion may cause gastroin	testinal irritation, nausea, vomiting, and diarrhea.
Acute toxicity	This product is not classified ingredient acute toxicity data	as an acute toxicity hazard. See below for product and individu.
Product	Species	Acute Toxicity Estimate (ATE)
Permanganate N/5 (CAS Mixture) Acute		
Dermal
